

TECHNICAL ASSISTANCE PROJECT FACTSHEET

Project Name:	El Cambio Climático: Consecuencias y Soluciones –Por qué se debe evitar un planeta 4°C más cálido		
TAP Number:	TAP 01-01/16 CB	Start Date:	01/28/16
Project Location:	Hermosillo, Sonora	Completion Date:	03/31/16
Project Sponsor:	CEA, World Bank (4 Experts attended final conference), NADB	Closeout Report Date:	06/20/16

TA Fundamental Objective:

Strengthen the capabilities of the stakeholders to build more sustainable institutions. Expand and transmit knowledge of climate change, as well as the development possible projects that can help offset its impacts. Teach the GHG accounting method for water projects.

TA Scope:

Focus on the climate change effects and impacts in the region (Sonora) and develop projects (adaptation and mitigation to cc) that can solve some of the community problems.

The Results

Outcomes

- Share community projects that tackle climate change and shared best practices from different sectors.
- Greenhouse gas (GHG) accounting methodology learnt for future water projects.
- Working on publications of 4 case studies derived from course.

TA FUNDING: US\$

TA Approved:	19,607
Contracted:	15,943
Disbursed:	15,943

Outputs

- 150 participants in final conference
- 17 participants trained and graduated
- 17 community plans developed as final projects
