

TECHNICAL ASSISTANCE PROJECT FACTSHEET

Project Name:	Wastewater Collection Rehabilitation for Downtown Caborca, Sonora.		
TAP Number:	2118	Start Date:	6/26/16
Project Location:	Heroica Caborca, Sonora	Completion Date:	2/21/17
Project Sponsor:	OOMAPAS Caborca, Sonora	Closeout Report Date:	07/07/17

TA Fundamental Objective:
 The existing sewer system in downtown Caborca is obsolete and in very poor condition. Most of the pipe along the length of sub-collectors and laterals is extremely deteriorated and unsalvageable. Manhole collapses frequently occur and are a potential public health and safety hazard.

TA Scope:
 Development of final design and procurement documents for wastewater collection rehabilitation in downtown Caborca.

The Results

Outcomes
 To rehabilitate the WWC system and reduce discharges of raw sewage and the associated risks to human health.

TA FUNDING: US\$	
TA Approved:	\$35,294
Contracted:	\$35,294
Disbursed:	\$35,294

Outputs

- Final Design for WWC System Rehabilitation
- Specifications & Bid Documents

Sources of Funding:	
JTAP:	\$35,294
Other Funds:	\$35,294 (CONAGUA)
Total:	\$70,588

Benefited Population: 59,922 residents

Partnerships: CONAGUA, Municipality of Caborca and OOMAPAS Caborca.
